- 2 The other gains component of the distribution is not taxable in the hands of all unitholders.
- 3 The capital component of the distribution is treated as a return of capital for Singapore income tax purposes. No tax will be deducted at source from this component.
- 4 Tax will be deducted at source from the taxable income component in certain circumstances. The following paragraphs describe the circumstances in which tax will or will not be deducted from the taxable income component of the distribution.
